

Context65

```
graph TD; Context65([Context65]) --> Snippet([there is a snippet with tab trigger "hash" and scope "text.plain" and content]);
```

The diagram consists of two nodes. The top node is an oval labeled 'Context65'. A vertical arrow points from the bottom of this oval to the top of a larger oval below it. The larger oval contains the text 'there is a snippet with tab trigger "hash" and scope "text.plain" and content'.

there is a snippet with tab trigger "hash" and scope "text.plain" and content
